SUMMARY

Enthusiastic **Full Stack Developer** with a strong foundation in modern web technologies. Skilled in creating responsive and interactive user interfaces using **React**. Capable of developing backend services and APIs using **Node.js** and **Express**. Experienced with database management in **MongoDB**. Passionate about building scalable, efficient web applications and eager to contribute to all stages of the development lifecycle. Quick learner with a keen interest in staying updated with the latest industry trends and best practices in full stack development.

PROJECTS

SHOPIFY E-Commerce [🔗 Live Demo](#) | [🐙 GitHub](#)

- Shopify - **Ecommerce Platform**.
- Tech Stack - **React**, **Bootstrap**, **PHP**, **Vite**.
- Developed a responsive e-commerce platform using React, creating a seamless and responsive user experience with Bootstrap for styling and React Router for navigation.
- Utilized useContext for efficient state management and dynamic data fetching from APIs.
- Enhanced user interaction with tooltips and intuitive navigation through clickable images and links.
- Implemented "Add to Cart" and "Buy Now" functionalities, streamlining the purchasing process for users.
- **Admin** - [🔗 Live Demo](#) | [🐙 GitHub](#)
- Built an intuitive admin panel for managing products, categories, and user data.
- Implemented CRUD operations for product management, allowing admins to add, update, and delete products.
- Designed user-friendly interfaces for managing orders, inventory, and customer information. Integrated analytics and reporting features to provide insights into sales performance and user behavior.
- Ensured secure authentication and authorization for admin users.

GRILLI Restaurant [🔗 Live Demo](#) | [🐙 GitHub](#)

- GRILLI Restaurant - **Online Food Ordering Platform**.
- Tech Stack - **Reactjs**, **Bootstrap**, **Nodejs**, **Expressjs**, **MongoDB**, **JWT**, **Stripe**, **Vite**, **Axios**.
- "Grilli Restaurant," a robust restaurant management system featuring a customer-facing online food ordering platform, a backend server, and an administrative panel.
- Designed and implemented the frontend using React, creating a seamless and responsive user experience with Bootstrap for styling and React Router for navigation.
- **Backend** - [🔗 Live Demo](#) | [🐙 GitHub](#)
- Developed a secure and scalable backend for an e-commerce application, leveraging Node.js and Express. Implemented robust user authentication and authorization with JWT and Bcrypt, ensuring data security. Integrated Stripe for payment processing and designed RESTful APIs for seamless front-end integration. Utilized Mongoose for MongoDB interactions and Multer for handling file uploads, enhancing the application's functionality. Integrated Stripe for secure payment processing.
- **Admin** - [🔗 Live Demo](#) | [🐙 GitHub](#)
- Crafted an admin panel for real-time management of menu items, orders, and analytics, enhancing operational efficiency and business oversight.
- Employed Vite for rapid development cycles and ESLint to ensure high code quality.

TECHNICAL SKILLS

Languages: JavaScript

Web Development: HTML, CSS, Redux, NodeJS, APIs, REST APIs, Git

Developer Tools: VS Code, PostMan, Chrome DevTools, GitHub

Technologies/Frameworks: ReactJS, Bootstrap, Tailwind, ExpressJS

Database: MongoDB

EDUCATION

Government College Of Engineering, Kalahandi
Bachelor of Technology in Electrical Engg

2010-2014
Bhawanipatna, Odisha
